CONTENTS

SPECIAL ISSUE: Milestones and future prospects in snake venom research

GUEST EDITORS:

R.M. Kini and J.W. Fox

R.M. Kini and J.W. Fox	1	Milestones and future prospects in snake venom research
F.S. Markland Jr. and S. Swenson	3	Snake venom metalloproteinases
S.M.T. Serrano	19	The long road of research on snake venom serine proteinases
J.M. Gutiérrez and B. Lomonte	27	Phospholipases A_2: Unveiling the secrets of a functionally versatile group of snake venom toxins
J.J. Calvete	40	The continuing saga of snake venom disintegrins
Y.N. Utkin	50	Three-finger toxins, a deadly weapon of elapid venom – Milestones of discovery
R.J.R. McCleary and R.M. Kini	56	Non-enzymatic proteins from snake venoms: A gold mine of pharmacological tools and drug leads
J.W. Fox	75	A brief review of the scientific history of several lesser-known snake venom proteins: L-amino acid oxidases, hyaluronidases and phosphodiesterases
